

My first Waltzer prototype
was the second world I ever
uploaded

*"If I can create on the platform, I will try to
make a Waltzer!"*

As soon as I started creating worlds in VRChat, I obviously tried making a Waltzer!

As you may expect, the world doesn't even work anymore because of the outdated version, but it is there to remind me how passionate I've been about creating one ever since the beginning of my world development career.
